With half year still to go before the doors open, the international trade-fair duo of Techtextil and Texprocess is almost fully booked up and companies wanting to exhibit should hurry. Proposals for the new Techtextil Forum can still be submitted.

With around six months still to go before they open their doors, the trade-fair duo of Techtextil, Leading International Trade Fair for Technical Textiles and Nonwovens, and Texprocess, Leading International Trade Fair for Processing Textile and Flexible Materials, is almost fully booked up. The number of registrations received for the two fairs (14 to 17 May 2019) is already significantly over that of the previous editions. Although companies can still register to exhibit at both events, they should not delay as the remaining exhibition space is limited.

Techtextil and Texprocess: only limited exhibition space still available.

Techtextil with a broad spectrum for all areas of application

To date, around 1,000 companies from 54 countries have registered for Techtextil 2019. The exhibitors at Techtextil present the complete spectrum of technical textiles and nonwovens. Next year will see a significant increase in the fields of technology and fibres & yarns. Also very well represented are suppliers of woven fabrics, coated textiles and functional apparel textiles. The exhibitors show fibre-based products for all areas of applications, in particular, an expanded range for the industry, for architecture and civil engineering, apparel, mobility, medicine, sport and hazard protection.

Texprocess shows the entire textile processing chain

With over 250 registrations already received from 31 countries, the concurrent Texprocess presents the complete spectrum of textile processing technologies from design, via cutting, making, trimming, textile digital printing, dressing and finishing, to textile logistics and textile recycling. In the case of Texprocess, too, there is only a limited amount of exhibition space still available.

New Techtexil Forum: deadline for programme proposals approaching rapidly

With the Techtexil Forum, Techtexil 2019 will have a new platform for the exchange of ideas and information between exhibitors and trade visitors, as well as researchers, developers and users of technical textiles. Techtexil Forum will be held within the framework of the fair, on all four days and free of charge for all trade-fair participants. Proposals for lectures, discussions and workshops can still be submitted until 16 November. Information about submitting proposals can be found via the link m-es.se/Lp5r.

Techtexil and Texprocess will take place in Frankfurt am Main from 14 to 17 May 2019.

Background information on Messe Frankfurt

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,400 employees at 30 locations, the company generates annual sales of around €669 million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
